### Relay UK App - Free

**Relay UK** - Relay UK helps deaf, speech-impaired, and hearing people talk to each other over the phone using the relay service

#### Top 5 tips to work with Deaf people

- 1. Ask what their preferred method of communication is.

  Make sure their communication needs are met and they understand and can engage fully in all modes of communication.
- 2. Offer to signpost to the right organisations who can **communicate** with them in their preferred language.
- 3. Make sure assessments are carried out by experts who have lots of experience working with members of the Deaf community.
- 4. **Empower them** to make informed decisions that are right for them.
- 5. Make sure they are happy with the choice of interpreters.

  Maybe they know the interpreter from work or through friends.

  They may not feel comfortable using an interpreter that they know, when discussing domestic abuse.

All resources and their links in this list were correct at the time of writing and may have changed overtime.
