

# SAFER CORNWALL

## Summer Plan 2026

Kernow Salwa

The [Safer Towns](#) Programme was developed by the Community Safety Team to **respond to local needs and priorities** and focus resources on the people and places that need it most.

There are **ten Safer Towns** across Cornwall – Penzance, Camborne and Redruth, Falmouth, Truro, Newquay, St Austell, Bodmin, Saltash and Liskeard. The ten towns were chosen because they experience the **highest levels of crime and anti-social behaviour**, alongside complex issues around drugs, alcohol, rough sleeping and safeguarding vulnerable people.

Each local partnership **brings together the public sector and local services**, elected members, voluntary and community organisations, and local businesses. Led by Community Safety Officers, partners work together to deliver **creative and locally led solutions** and demonstrate partnership working at its best.

**Annual Town Profiles** are provided to each Safer Town partnership to help **shape local action plans** and this is combined with community intelligence to identify and agree local priorities; this creates a **strong sense of ownership** and supports a vibrant problem-solving approach. Information on local trends and risks is shared on an ongoing basis through the Amethyst Community Safety Intelligence Team.

The **Safer Towns partnerships are able to respond quickly** as new risks and challenges emerge with stepped-up intensive support – including extra patrols and public drop-ins, public reassurance and communications, outreach support, drug-related litter response, CCTV use and dynamic information sharing and risk management. We deploy all of these tactics during the summer peak.

## The Safer Cornwall Summer Plan 2026

The Safer Cornwall Summer Plan 2026 is presented under 4 headings:

- Intelligence-led, targeted approach to improve community safety
- Young people supported and diverted from involvement in ASB and crime
- Meaningful consequences, that balance enforcement with support
- Residents are well-informed and engaged in what we are doing in their area

As well as considering the needs of the town centres, the Safer Cornwall Summer Plan extends to beaches and coastal hotspots.

Increased High-Visibility, Intelligence Led Patrols in hotspot areas	<p>Hotspot Policing- The Office of the Police and Crime Commissioner (OPCC) has confirmed that funding for Street Marshal /Ranger patrols will continue in Penzance, Camborne, St Austell, Truro, Newquay, and Bodmin for a further six months, covering the period from 1<sup>st</sup> April to 30 September 2026.</p> <p>Street marshals are employed by either the Business Improvement District (BID) or Town Council, using several different local providers. All street marshals have, or are working towards, CSAS accreditation.</p> <p>Police Sectors which were not included in the original Hotspot Funding project will be adopting the Hotspot Policing methodology (without additional funding) amongst their Neighbourhood Teams. This includes Liskeard, Falmouth, and Launceston.</p>	Street Marshals (BIDs/Town Councils)	OPCC

This will ensure that any use of available powers is consistent, proportionate, non-discriminatory, and compliant with the Human Rights Act 1998 and the Data Protection Act 1998. It is recognised that living a nomadic lifestyle is lawful and that some people may do so for cultural reasons. This protocol aims to take a balanced and proportionate approach to dealing with unauthorised encampments which is based on the objective assessment of the impact of the encampment in question. This will include close liaison and effective communication with landowners, settled communities and those encamped, in-order to explain where action is taken/not taken and the reasons for this. Multi agency meetings may be convened to manage this joint approach and implement preventative measures such as access restrictions in specific locations such as Warfelton Field in Saltash during 2026.</li> </ul>	<p>Fortnightly multi-agency GRT and Unauthorised Encampment Strategic Group</p> <p>Community Safety Team</p>	Regulatory and Housing & Planning Services
