

Draft Safer Bodmin Delivery Plan 2026-27

The aim of Safer Bodmin is to **improve community safety and reduce crime and anti-social behaviour** by targeting resources to the people and places that need it most within the geographical area, and working with **communities, partners and the business and voluntary sectors** to develop **sustainable solutions**.

Safer Bodmin will facilitate and support a multi-agency approach to community safety issues to improve public reassurance, reduce the risk of harm to the community and protect vulnerable groups. Communities will be actively involved in the work of the partnership which will encourage social inclusion and community resourcefulness through being part of the problem-solving process. Achieving safer communities depends upon everyone working together to find local solutions to local problems.
