

Safer Bodmin Delivery Plan 2023-24

The aim of Safer Bodmin is to **improve community safety and reduce crime and anti-social behaviour** by targeting resources to the people and places that need it most within the geographical area, and working with **communities, partners and the business and voluntary sectors** to develop **sustainable solutions**.

Safer Bodmin will facilitate and support a multi-agency approach to community safety issues to improve public reassurance, reduce the risk of harm to the community and protect vulnerable groups. Communities will be actively involved in the work of the partnership which will encourage social inclusion and community resourcefulness through being part of the problem-solving process. Achieving safer communities depends upon everyone working together to find local solutions to local problems.

Based on the evidence presented in the Bodmin Town Profile and feedback from the Residents Survey, the following have been identified as community safety priorities for the town:

Drug related harm and recovery including dangerous drug networks/county lines/cuckooing
Serious violence and improved feelings of safety
Domestic abuse and reducing violence against women and girls
Youth engagement
Targeted activity in the most deprived geographical areas; Kinsman Estate, Town Centre and Berryfields
Community engagement and building community resilience

These priorities will be addressed through this delivery plan. Progress will be measured through achievement of quarterly and annual milestones over the lifetime of the plan and key deliverables/outcomes will be reported to the Safer Cornwall Partnership.

Key:

Safer Town led	y
Partner/Community led with support	y
Community led	y

Priority area: Drug related harm and recovery including dangerous drug networks/county lines/cuckooing
